

MACBA Metamorphosis

Changing Spaces

From External to Internal - Barcelona's Graffiti Re-imagined by AI

Karyn Easton

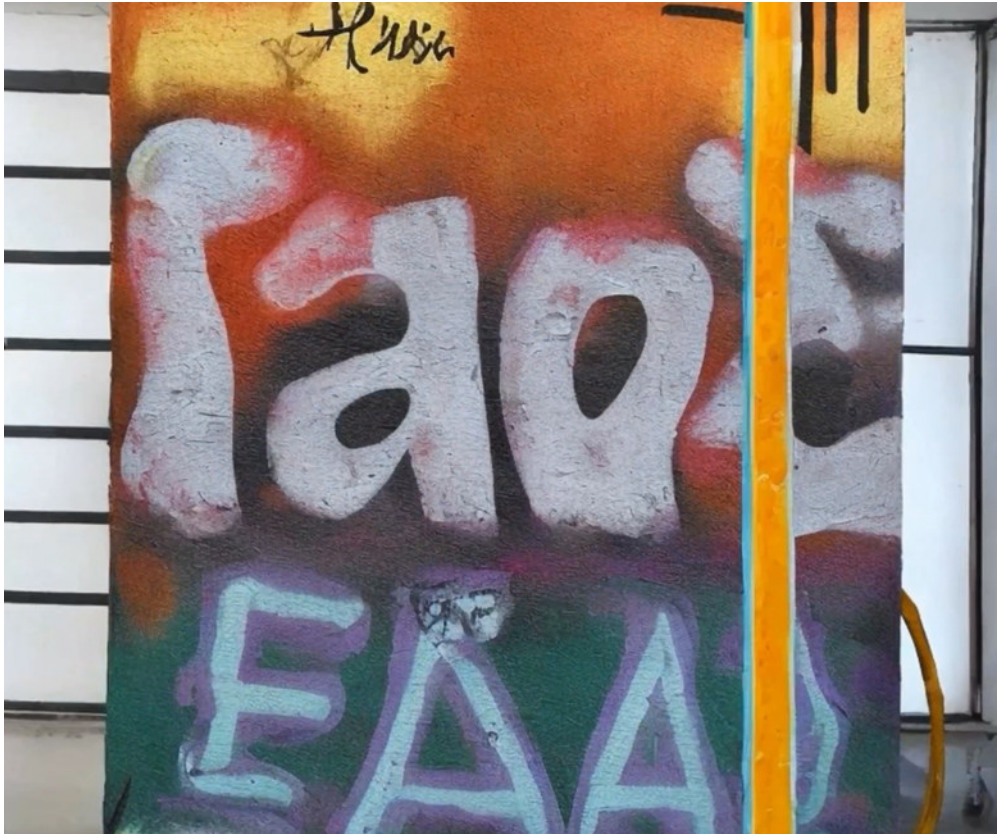

MACBA Metamorphosis - Changing Spaces

MACBA Metamorphosis, by digital artist Karyn Easton, brings Barcelona's re-imagined colourful external graffiti into the beautiful internal white space of the MACBA Museum. The MACBA provides the perfect backdrop to explore the work of unknown graffiti artists using AI and digital composite techniques.

Graffiti Re-Imagined by AI

This book is dedicated to all of the unknown street artists who have produced the amazing, colourful graffiti across Barcelona. It is a brief digital exploration of both their art (re-imagined by AI), and how it might look if sprayed onto the pristine white walls of the MACBA, one of Barcelona's leading contemporary art museums.

MACBA Metamorphosis - changing spaces - from a voiceless external to a transformed internal.
